

TECHNICAL DATA SHEET

ARTICLE CODE: SDS 10
DESCENDER DEVICE

Key features:

- Single rope descend device.
- Descend speed is controlled by user's pressure on the handle and block immediately as soon as the handled is released.
- Maximum working load 150 Kg.

Construction:

- Equipped with auto breaking and self-locking system.
- Single action Lever to use the device
- Material – Cast aluminum
- Weight – 430gm
- Finish - Colored, Anodized
- Works on 10.5 mm to 11 mm Dia braided rope.

Standard:

- Conforms to EN 341 – Class A, EN12841 Type C

Application:

Descend, Rope access, Rescue, Facade Cleaning, Painting & Maintenance

Care instruction and storage	Store in a cool dry place. Avoid damp areas, chemicals, and sharp objects. Keep away from heat.
Cleaning	Use either mild soap and water or a mild, bleach-free cleaning solution that won't damage the device.
Inspection	Should be inspected frequently, both before each use and in every 6 months interval. Damaged or defective product should be discarded from service immediately after inspection.
